

Serving as Business Advisory Council to Schools Districts in Washington County
Belpre~Fort Frye~Frontier~Marietta~Warren~Wolf Creek

Purpose of a Business Advisory Council

Business advisory councils foster cooperation among schools, businesses and the communities they serve. This cooperation can make a local education system more aware of the local labor market; promote work-based experiences within businesses; and help students prepare for successful learning and employment opportunities. Business advisory councils include regional business leaders who are familiar with business and industry needs. Members partner with district leaders to plan and carry out the council's work.

Role of a Business Advisory Council

1. To advise local school districts on changes in the economy and job market and the area in which future jobs are most likely to be available;
2. To advocate for the employment skills most critical to business and industry and the development of curriculum to teach these skills;
3. To aid and support local school districts by offering suggestions for developing a working relationship among businesses, labor organizations and educators.
